DATES:	Sentencing/Final Revocation Hearing
06/01/04	Guidelines are as follows: TOL 15, CH VI, 41-51 months custody, 24-36 months supervised release, \$4K-
	\$40K fine and \$100 special assessment fee. Government recommends a sentence of 41months pursuant to
	the parties plea agreement. Defendant joins in the government recommendation with a judicial
	recommendation to the 500 hour BOP drug program. Formal sentencing - 41 months custody with the
	recommendation that the defendant participate in the 500 hour drug program, 36 months supervised release
	on the standard conditions plus not possess a firearm or other dangerous weapon, participate in a drug
	treatment and testing program as proscribed by probation and must comply with the special conditions imposed
	in CR01-10079. Court imposes no fine but does impose a mandatory \$100 special assessment fee. Court
	advises the defendant of his right to appeal and to counsel. Government files a motion to dismiss count two
	of the indictment in court, which is allowed by the court. Court now turns to the revocation proceeding in
	CR01-10079. Defendant does not contest the violations. Court finds that there is factual basis to revoke the
	defendant's supervised release and does the same. Government recommends a sentence of 13 months to
	run concurrent to the sentence just imposed in CR04-10072. Formal sentencing - 7 months custody to be
	concurrent with the sentence imposed in CR04-10072 followed by 29 months supervised release on the
	standard conditions plus not possess a firearm or other dangerous weapons, pay the balance of the restitution
	originally imposed by the court, no new credit lines or charges, provide access to financial information as
	requested by probation, substance abuse treatment/testing program and mental health program as prescribed
	by probation.
